

## **Sana Labs is partnering with Learnosity**

**Together with Irish-based Learnosity Sana Labs is entering a strategic partnership where Sana Labs products, based on state-of-the-art machine learning, is integrated with Learnosity's online assessments.**

STOCKHOLM September 4th 2018 - Learnosity, which provides services for creating your own online assessment, has today over 30 million users and is a global leader within edtech. With customers within the startup community as well as established education companies, such as Pearson and General Assembly, Learnosity helps the world's largest education companies create online assessments.

*"We are very excited to bring state-of-the-art machine learning to Learnosity's assessment offering. This partnership enables immediate and easily implementable personalization, complementing our existing technology. The machine learning is key for improving learning outcomes as demonstrated by the ever-increasing demand, and Sana Labs and Learnosity are now together addressing this need"* says Ben Powell, Senior Vice President, Business Development & Partnerships.

For Learnosity a partnership with Sana Labs means a smooth integration of AI to personalize their assessments, built on cutting-edge machine learning technology. For Sana Labs' customers, it means access to and easy integration with world-class online assessments.

*"We're excited to announce our partnership with Learnosity. Rolling out deep technology integrations with partners in all of our markets is core to our playbook, but an integrated experience with Learnosity, is the epitome of our partner strategy"*, says Joel Hellermark, Founder and CEO of Sana Labs.
